

## **Corporate Sustainer Partners**

We developed our Corporate Sustainer campaign on the foundation that each of our companies must have the staying power to ensure our products and/or services remain viable and easily accessed by our consumers. We know there are always challenges that pull at the fabric of sustainability and thus create risks.

To help manage these threats to our ability to ensure health and wellness to our community, we are reaching out to grow partnerships in “We Together...”. We have contacted your company because we believe you have a similar vision. That of having a workforce that can manager life stressors as they produce the necessary products and services for our community.

Family Services of Davidson County (FSDC) began in 1997 after a community needs assessment recommended an agency that could meet a diversity of crisis and mental health needs. FSDC continues to address the needs of our community, through evidence-based programming and within the framework of Trauma-informed care, we know that we must remain a resource for those who have been impacted by life’s challenges and traumas.

“We Together...” is the campaign that will make certain of our ability to provide the services and programs that strengthen individuals and families. Your annual investment will make certain we remain the viable resource for our community and ensure our healthy and prosperous way of life here in Davidson County.
